

Specification

W-3H(S) High Back

W-3L(S) Low back

Feature

High legged nylon base with nylon castor provides stability.

Highly durable injection moulded P.U. foam.

Flexible headrest support adjustable to individual height & comfort.

The permanent contact mechanism eases your body into the desired sitting position and supports you without having to shift leg position for balance & with tilt lock control.

The waist-backrest can be adjusted up and down, backwards and forward to satisfy individual needs.

Fixed polypropylene armrest.

Heavy-duty mesh with nylon.
